Your Works Cited page begins on the next page immediately after your essay. So, if your essay ends on page 2, your Works Cited page will begin on page 3.

STEP 2:

Begin by CENTERING THE TITLE on the 1^{st} line: "Works Cited" (or "Work Cited" if you are only using one source.) Press enter 1 time to move to the 2^{nd} line of the page. Return the alignment to the right.

STEP 3:

Click FORMAT, then ALIGN & INDENT, then INDENTATION OPTIONS.

In the menu under SPECIAL INDENT, select HANGING at 0.5 inch. Click APPLY.

STEP 4:

Add your entries. Each source should start on a new line aligned to the right. Sources should be listed in alphabetical order according to the first word in the entry (usually author's last name). Do not add extra space after the "Works Cited" title or between entries. The automatic double-spacing is all you need.
